SkyDoc™ Monitoring River Activity

### Why to Choose the SkyDoc™

SkyDoc™ Aerostat is the leader in aerostat technology

The SkyDoc™ aerostat meets the criteria required by military, law enforcement and border patrol for specialized payload deployment. The special design of the Sky-Doc™ aerostat allows for increased lift with increased winds.

**THE SKYDOC™ TETHER USES STRANDED COPPER CONDUCTORS AND FIBER OPTIC STRANDS FOR TRANSMISSION OF CAMERA DATA AND SECURE COMMUNICATIONS.**

The SkyDoc™ was designed for Performance, reliability, and versatility to accommodate state of the art cameras for surveillance monitoring, communications, and real-time activity.
