MATCHING YOUR REQUIREMENTS TO A SkyDoc™ AEROSTAT SYSTEM

What do you want to accomplish?

- Surveillance
- Communications
- Remote area relay
- Shipboard security during transit of hostile waters
- Atmospheric monitoring/testing
- Cargo terminal/container security/harbor surveillance
- Large event/stadium security

Do you need mobility?

- Border wall/fence observation
- Pipeline sabotage
- Ability to move from point-A to point-B while aloft and operational

Do you have a lightweight payload needing mobility?

AXE4LT-4H In-a-Box

Heavier payloads for extended operations

AXE4-12H

Center

- Tethered aerostat for extended surveillance
- Telescoping mast for confined areas
- Drone capability for quick look
- Dual bulkhead monitors for mast/aerostat
- Control center for camera control
- Communications for remote monitoring

Consult with us on how to meet your requirements.
